

### **Global Sourcing Association Awards shortlist announcement**

The Global Sourcing Association is delighted to announce the 2016 GSA Awards shortlist. Winners will be announced on Thursday 10th November 2016 at the 5-star Intercontinental Park Lane, London.

The Global Sourcing Association Awards (GSAAs) now in its Thirteenth year recognises and celebrates the efforts of companies who have demonstrated best-practice in outsourcing.

### **Global Sourcing Association CEO, Kerry Hallard said:**

“On the wave of advancements in technology the globalisation of sourcing continues at a formidable pace, with shortlisted case studies in this year’s Awards programme featuring Africa, Singapore, Egypt, Fiji, South Africa and Sri Lanka as well as the UK and Central and Eastern European countries.

Established providers are increasingly facing off against newer, often smaller but more agile contenders and the diversity of services showcased here further demonstrates the ever-extending reach of sourcing, shared services and GBS.

This is without doubt the most competitive year ever in terms of submissions; the quality of case studies evidencing outsourcing excellence across aspects such as relationship and contract management, innovation, service delivery and collaboration has made the judging process an extremely challenging one. Those buyers and service providers who made the shortlist should feel very proud to get this far as the bar has been raised considerably.

With 18 categories ranging from Private and Public Sector, Utilities and Financial Services through to Legal, Service Delivery Automation, CSR and Customer Experience, it goes without saying that this is going to be the must-attend awards event of the year.”
