

National Outsourcing Association Awards shortlist announcement

The National Outsourcing Association is delighted to announce the 2015 NOA Awards shortlist. Winners will be announced on Thursday 19th November 2015 at the 5 star Landmark Hotel, London.

The National Outsourcing Association Awards (NOAAs) now in its twelfth year recognises and celebrates the efforts of companies who have demonstrated best-practice in outsourcing.

National Outsourcing Association CEO, Kerry Hallard said:

“Following one of its strongest ever years, the global outsourcing industry is undergoing a paradigm shift in terms of technology, customer centricity and client expectation. Buyers and service providers alike are looking to the future, determining which trends are most significant and what investments must be made.

This fact is reflected through the submissions for this year’s awards; suppliers are focused on progressive business transformation, with the buyers eager to facilitate them. The shortlist for this year’s NOA Awards is packed with exemplary case studies featuring efficiency gains, innovation and added value that goes well beyond cost savings. The industry’s key providers are performing as well as ever, alongside a number of new contenders and partnerships pushing the limits of what can be achieved through outsourcing. Needless to say, this is gearing up to be a very exciting awards ceremony.”
